# CLASSIFIED INDEX

An index in which each work included in this issue is listed under a heading descriptive of its medium of performance or special character. For each entry the name under which it will be found in the first section is given first, followed by the conventional title or the title given in the work, or both.

## PREFATORY NOTE

The Classified Index is designed to meet the needs of those who are searching for music for performance, or for music of national characteristics or special subject interest. The headings have been selected and the list of headings constructed on the principle of using specific headings insofar as possible, e.g., "Opera," not "Dramatic Music-Operas." However, headings of broad scope with subdivisions for specific types have been used when the headings are so closely related as otherwise to require numerous cross-references or searching under widely separated headings, e.g., "Chamber music-Quartets - String instruments" not "String quartets."

The abbreviations used are: acc.-accompaniment; unacc.-unaccompanied; arr.-arranged.

To facilitate locating the desired heading, the Classified Index is preceded by a "Table of Headings Used," citing the page number on which the list under each heading starts. Cross-references are included from headings not used, and from subdivisions of a general heading to the broad heading. All cross-references are given in the table, and are not repeated in the index itself. Examples are:

Oratorios. See Choral music - Sacred choral works  
Librettos. See Operas, operettas, etc. - Librettos

Cross-references are made from one heading to another when the second covers closely related material, e.g., "Orchestra. See also String orchestra."

Instructive material for particular instruments is listed under the name of each instrument, e.g., "Violin instruction." Material which is predominantly textual, such as histories, biographies, and works on appreciation, theory, etc. will be found in a separate section at the end called "Books and Pamphlets."

The entries in the index constitute brief references to the main entries in the first section of this volume. The entries consist of the name of the author followed by the title page title, or the conventional title and the title page title. Each entry in the index is represented by an entry under the composer in the main section, where any other editions registered in the period covered by this catalog will also be found.

Inc. Forenames or initials used as part of a firm name are placed within parentheses when the name is written in inverted form; e.g., Disney (Walt) Productions, Fischer (J.) & Bro. Way up high.  
Whenever I'm lonely.  
Who will know.  
Won'tcha kiss me.  
You should have asked me.  
You're like a dream.  
Yours forever.  
You've got to make a good  
start.
